

Northern Chrome Dome Route

October 1962

Daily Chrome Dome sortie flown during October 1962 by B-52G aircraft from the 4126th Strategic Wing (H) at Beale Air Force Base, California. Each bomber carried four B28 thermonuclear bombs. The alternate route along DEW Line sites would be flown in case of HF radio malfunction.

History of the 4126th Strategic Wing, Heavy.
1-31 October 1962, K-WG-4126-HI, AFHRC.
