

Hard Head Thule Monitor Route

November-December 1964

During November and December 1964, B-52H bombers from the 450th Bombardment Wing at Minot AFB, North Dakota, flew 87 Thule Monitor missions over the Thule radar. Each aircraft carried four B28 thermonuclear bombs.

History, 450th Bombardment Wing (Heavy), October-December 1964, pp. 5, 10, and Exhibit 18. K-WG-450-HI, AFHRC.
