B61-11 Program Update to AQQ and PEO/ST (U)

This documents the discussion and results of the B61-11 Program Update meeting on 28 Aug 95, AQQ Conference Room.

~~(S)~~  
(U) Gen Richards opened by stating he had some inquiries from OSD personnel about the absence of B-2 support for the B61-11 kick-off meeting. General Moore requested a run-down of documentation supporting the program. [

] and the four letters from Congress to DOE approving their request to reprogram FY95 funds for the effort.

(U) Lt Col Mullins went through the briefing slides on where the program is today.

(U) It was decided that PEO/ST would direct the B-2 SPO to support the B61-11 program and, if needed, engage the contractor for analysis. It was agreed that the DOE labs could provide up to two point designs for analysis by the B-2 SPO. The SPO would make an estimate as to the acceptance of these designs for easy integration onto the B-2, with the goal of not requiring B-2 developmental flight tests. It was agreed that initially the SPO would be tasked to handle this out of the B-2 management reserve. However, if this became an impact to the B-2 program, then it was further agreed that the B-2 SPO would be reimbursed, up to \$500k, from the B-52 flight test dollars for this weapon.

(U) Subsequent to the meeting Mr Ellsworth Rolfs, the B61-11 program manager, informed Lt Col Mullins that he would form a separate B-2 Integration Working Group to address all aspects of certifying the weapon onto by the B-2. The B61-11 Executive Working Group will initiate any official analysis by the B-2 SPO. The request for analysis will be past through Lt Col Mullins, who will coordinate with AQQS(B-2) and PEO/ST, and then send it onto the SPO.
